Data Engineer with 5+ years of experience delivering Business Intelligence and data solutions, specializing in scalable ETL/ELT pipelines, backend data integration, and automation using Python, SQL, IBM DataStage, and PL/SQL. Building production-grade Data Engineering projects using Docker, Git, Linux, MyST, Jupyter Notebooks, and cloud technologies.

Technical Skills

Programming: Python • SQL • T-SQL • PL/SQL
Data Engineering: Apache Airflow • IBM DataStage • ETL/ELT • PostgreSQL • Docker • Git • Linux
Databases: Oracle • SQL Server • MySQL
Business Intelligence: Power BI • SSIS • SSAS • DAX • Tableau
Cloud: AWS
Container Orchestration: Kubernetes

Experience

MatrixDNA
2025 – Present
Israel Tax Authority - Data Engineer

- Develop enterprise data pipelines using Python, dbt, Microsoft SQL Server, and GCP.
- Design scalable ETL/ELT workflows and data transformation models.
- Deliver reliable data solutions for enterprise business processes.

Bank Mizrahi - Senior BI Developer

- Designed and optimized scalable data integration workflows using IBM DataStage and PL/SQL.
- Built and maintained backend ETL pipelines integrating multiple enterprise systems.
- Developed Python automation solutions to improve data processing and operational efficiency.

Yael Group
BI Developer
2023 – 2025

- Developed end-to-end Business Intelligence solutions using the Jedox platform.
- Designed OLAP models, developed ETL processes, and delivered analytical reporting solutions.
- Translated business requirements into technical specifications and supported customer implementations.

Shufersal
BI Developer
2021 – 2023

- Developed complex T-SQL queries and ETL processes using SQL Server technologies.
- Built analytical models with SSAS and created interactive Power BI dashboards.
- Delivered business insights through reporting and data analysis to support decision-making.

Education

John Bryce | Tel Aviv 2026 – Present
