

YONATAN AFENGAR

Senior BI Developer | Data Engineering

Python | SQL | ETL | IBM DataStage | Docker | Git

+972 52-6191122 | Yoni.afengar@gmail.com
[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Senior BI Developer with 5+ years of experience delivering Business Intelligence and Data Engineering solutions, specializing in scalable ETL/ELT pipelines, backend data integration, and automation using Python, SQL, IBM DataStage, and PL/SQL.

Continuously expanding my expertise through production-style Data Engineering projects using Docker, Git, Linux, MyST, Jupyter Notebooks, and cloud technologies.

Technical Skills

Programming: Python • SQL • T-SQL • PL/SQL
Data Engineering: IBM DataStage • ETL/ELT • Docker • Git • Linux
Databases: SQL Server • Oracle • MySQL
BI: Power BI • SSIS • SSAS • DAX • Tableau
Learning: Airflow • AWS • Kubernetes

Experience

MatrixDNA

Senior BI Developer | Data Engineering

2025 – Present

- Designed and optimized scalable data integration workflows using IBM DataStage and PL/SQL.
- Built backend data pipelines integrating multiple enterprise systems.
- Developed Python automation solutions and collaborated with stakeholders to deliver scalable BI solutions.

Yael Group

BI Developer

2023 – 2025

- Developed end-to-end Business Intelligence solutions using the Jedox platform.
- Designed OLAP models, developed ETL processes, and delivered analytical reporting solutions.
- Translated business requirements into technical specifications and supported customer implementations.

Shufersal

BI Developer

2021 – 2023

- Developed complex T-SQL queries and ETL processes using SQL Server technologies.
- Built analytical models with SSAS and created interactive Power BI dashboards.
- Delivered business insights through reporting and data analysis to support decision-making.

Education

John Bryce | Tel Aviv 2026 – Present

Cloud & Big Data Engineering with AI

Naya College | Herzliya 2022 – 2023

BI Expert with Tableau & Python

Afeka Academic College | Tel Aviv 2015 – 2019

B.Sc. Industrial Engineering and Management

Military Service

Combat Operations Officer | Israel Defense Forces (IDF)

2010–2014

Commanded over 100 soldiers in operational service.

Projects

MyST Docs Platform

[GitHub Repository](#)

Production-style documentation platform built with MyST, Docker, Python, and Jupyter Notebooks.

- Built a Dockerized documentation platform with interactive notebooks.
- Applied Git workflow, technical documentation, and release management.
